

LIGHT VOTE RE-ELECTS MAYOR AND ALDERMEN

**George Bartlett Begins His
Fourth Term as Village
Board President**

**LUX, LOWRY AND DROM
ALSO RETURNED TO OFFICE**

A comparatively light vote here Tuesday returned to office President George B. Bartlett and Village Trustees Charles N. Lux, H. P. Lowry and J. B. Drom. James M. Dunn was elected village treasurer, and Mrs. Louise Vos and O. A. Whitmore were chosen library directors.

All of the candidates on the People's ballot were elected without opposition, but the usual practice of writing in names was followed, and eight votes were counted for independent candidates for the various offices.

Bartlett First Elected in 1923. George Bartlett, re-elected to serve a fourth term as village president, was first elected in 1923. He was re-elected two years later, and after his second term expired in 1927 he declined to become a candidate for a third term. S. E. Pollock was elected at that time and served for one term. After the two year lay-off Mr. Bartlett was again elected in 1929 to serve a third term, and Tuesday was returned to the office for the fourth time.

Judge Assures Early Hearing of Spiering Case

**Was Appealed from the
Local Justice Court;
Before Dady**

The whole country is watching for the date on which Clarence Spiering, or nearly two months a determined squatter in the Hickory Corners church, will appeal the decision of Justice William Regan, of Antioch to vacate the church.

Judge Ralph Dady, of the Waukegan circuit court, has announced that the Spiering case will be given an early hearing, due to its peculiar nature. At first, the case was shelved until a later term, but will now be heard some time this week or next.

Spiering is appealing the justice court decision in the forcible entry and detainer action brought against him by the Hickory Methodist church trustees.

An effort of the trustees to jail Spiering on a charge of malicious mischief for breaking into the building after his home burned, was defeated last week.

PASSION PLAY, "CRISTUS" COM- ING TO ANTIOCH

That greatest of all religious dramas, the Passion play, will be shown in movie form, under the name of "Cristus," at the Crystal theatre next Wednesday and Thursday nights, under the auspices of the Epworth League of the Methodist church.

The picture is intensely real, as the actual scenes which the Christ is said to have visited in the Holy Land have been photographed at immense cost.

Grayslake Wrestler Downs Fred Grobmier

Jim McMillin, famed Grayslake wrestler and university football star, doubled up Fred Grobmier, his Iowa opponent, at the Chicago stadium Tuesday night, when they met in a semi-final, with a body lock, after 21 minutes and 44 seconds of rough action.

McMillin was stung by continued prods from Grobmier's elbow into using his flying tackle to weaken his opponent.

PETERSEN IS ELECTED MAYOR OF WAUKEGAN

**Democrat Defeats Nicholas
Keller; 10 Republican
Aldermen In**

16 FIGHTS ARE WAGED IN COUNTY

Peter W. Petersen, Democrat, was elected first mayor of Waukegan under the newly adopted aldermanic form of government. Tuesday, defeating Commissioner Nicholas M. Keller, Republican, 5,945 to 5,106.

Petersen was the lone Democrat to achieve victory, as all other successful candidates were Republicans. Jack P. Wythe defeated Joseph Daly for city clerk. John Homan beat Jack Hoff for treasurer, and Clarence Brown was victorious over James G. Welch for police magistrate. Ten Republican aldermen were elected.

Three Mayors Unseated. In the sixteen fights waged in Lake county towns Tuesday, three mayors were unseated. Frank Hamlin, Lake Villa, lost to Supervisor Harry Stratton for village president by a vote of 93 to 143. Gus Swanson, John Cribb and L. G. Brickman were elected trustees. The vote for police magistrate resulted in a tie with Earl Hucker and Ben Hadad receiving 109 votes each.

"Still Hunt" Falls at Fox Lake. Writing in the name of William Nadel against George Hollister, Fox Lake mayor up for re-election, was unavailing and Hollister was returned to office, 309 to 225. L. E. Perry, Edward C. Miller and E. R. Burlough were chosen village trustees.

Lewis is Defeated. Mayor Benjamin F. Lewis went down to defeat in Highland Park, where E. B. Metzel polled 2,553 to his 1,708.

Libertyville lost its president, Earl B. Corlett, who served two terms, when it elected Samuel P. Eversizer, 559 to 433.

CHICAGO FIRM LANDS COUNTY ROAD JOB

**Kren & Dato Will Build
Lake Zurich-Mundelein
Pavement**

The second stretch of highway let under the county bond issue system Monday was awarded to the firm of Kren & Dato, Chicago, at a price of \$116,078.79, the road and bridge committee of the Lake county board of supervisors announced. The section of road involved is a stretch of 6.9 miles between Mundelein and Lake Zurich.

The first piece of construction let under the county bond issue was the Diamond lake road, from the Cook county line to Mundelein.

The engineer's estimate on the section let to Kren & Dato Monday was \$157,715, and the letting of the contract for more than \$40,000 less than the estimated cost makes the project one of the cheapest pieces of road construction in Lake county, about \$18,000 per mile. There were thirteen bids received, ranging up to \$140,000.

Chairman Frank Stanton, William Roseng and other members of the road and bridge committee are well pleased at having secured what is considered a bargain price on road construction.

New Pump is Installed at Water Works Plant

A new turbine pump of 100 gallons per minute capacity is being installed in the water works plant today. The new pump replaces one of the old style pumps that has outlived its usefulness.

FIRES ARE LESS FREQUENT WHEN CLOUDS O'ERHANG

Although the sky was aglow in several spots from huge grass fires Sunday evening, the past week has seen a decrease in the number of fires, for which the change from warm dry weather is thought responsible.

Fires raged Sunday in the large weed-filled swamp near the Valmar subdivision, Camp Lake, and in Kopecky's subdivision, Lake Marie. The fire department was called twice to control the blaze in the Kopecky subdivision.

FIVE SOLOISTS TO APPEAR IN PERFORM- ANCE OF "MESSIAH"

**The Misses Kennedy, Han-
sen, Bettger, Mr. Jack
and Mr. Jeffers Sing**

Five soloists of uncommon ability have been secured to take part in the rendition of Handel's "Messiah" which is to be presented at 8:15 tomorrow evening, in the high school auditorium.

Miss Patricia Kennedy will sing the soprano air, "I Know That My Redeemer Liveth," and four recitatives; Catharine Bettger will sing two contralto solos, "He Was Despaired," and "He Shall Feed His Flock," with Olive Hanson singing "Come Unto Him," the soprano continuation of "He Shall Feed His Flock."

The tenor solos will be sung by Stanley Jack, of Waukegan. They are "Comfort Ye," "Every Valley," "Thy Robuke Has Broken His Heart," and "Behold and See." Edmund V. Jeffers, director, will present the three bass solos, "For Behold! Darkness Shall Cover the Earth," "The People That Walked in Darkness," "Why Do the Nations Rage?" Mr. Jeffers studied under Theodore Harrison at the Bush conservatory of music in Chicago.

A change has been made in the personnel of the soloists. Mr. Charles Lux will be unable to sing because of a recently contracted cold, and Mr. Dorsey, of Barrington, is also unable to participate.

Finished Performance Assured. This is one of the most difficult performances ever attempted by choruses in a town or school of this size, but the interest in this type of music displayed by the members of the group assures a spontaneous and finished rendition. All participants will be robed.

The director, E. V. Jeffers, a graduate of the Illinois Wesleyan university, has been greatly assisted at rehearsals by Miss Eunice Brann, who accompanies at the piano.

Moose Officers to Be Installed in Waukegan

The second group of officers of the recently instituted Moose lodge will be installed at a joint installation of the Waukegan, North Chicago and Antioch lodges, at the Moose lodge hall in Waukegan next Tuesday. Plans had been made to hold the installation here next Wednesday, but it has been considered desirable to accept Waukegan's invitation. The work will be done by Waukegan men, with a possibility of Moosehunt officers assisting.

O. E. Hachmeister will succeed William H. Rogan as dictator.

Dance Is Success. The dance sponsored by the Moose lodge at the Antioch Palace Saturday evening was attended by a crowd of about 600 patrons. Music was provided by the local Mellow Maniacs.

Mother's Day To Be Commemorated With a Banquet

The Mother's club of Antioch is sponsoring a banquet to be held May 12 at the M. E. church hall, to formally celebrate the event of Mother's Day. All mothers and daughters of Antioch and vicinity will be interested in attending and hearing Miss Elizabeth Pucker, assistant principal of the New Trier township high school, who will be the speaker of the evening. Miss Pucker has had wide experience with girls and parents, and she is a speaker of unusual ability.

Every year at this time, members of the Mother's club concentrate their efforts in securing a worthwhile speaker to address the mothers and daughters of Antioch, and this year it has been decided to hold a banquet as well.

Tickets on Sale. Tickets will be on sale this week and may be purchased from Mesdames F. H. Hackett, L. O. Bright, Leroy Graves, W. C. Petty, G. A. Whitmore, O. E. Phillips, C. L. Kull, Ben Burke, Nason Sibley, or any other member of the club. Any daughter of junior high school age or older may attend. Anyone who does not have a daughter will be allowed to bring some high school girl as her guest. The banquet will be served at 6:30.

DETOUR BRINGS PROTEST FROM BUSINESS FIRMS

**Construction of Lake Villa
Viaduct Is Begun This
Week**

The possible effect on business and trade in Antioch and the lake region is being discussed here this week, as the L. H. Fugitt construction company begins the work of grading the Lake Villa pavement gap for a viaduct over the Soo Lake tracks.

There is little doubt, according to Antioch business men, that transient trade here will be affected in no small measure, but it is believed that summer residents and those well acquainted with the locality will bear the inconvenience of a detour with little or no protest.

Five Minute Detour. Experiments have shown that there is less than 5 minutes difference in the traveling time from Lake Villa to Antioch, by direct route and by the Grand avenue and Route 56 detour.

Business interests at Loon lake and other intermediate places are working with authorities and have been negotiating with the state highway department to have the paved detour marked "For trucks only," thus permitting tourists and passenger cars to proceed on Milwaukee avenue to any one of the three gravel roads connecting with Route 56. If this is accomplished the stands and other service type of business along Milwaukee avenue will not be deprived entirely of the business they should have this season.

FAMOUS ORCHESTRA WILL PLAY AT TWIN LAKES BALL ROOM

**Lawrence Welk and Novel-
ty Entertainers Engaged
For Opening**

Will surprise never cease! Lawrence Welk and his orchestra are to appear at the Twin Lakes ballroom Saturday, April 25, under the exclusive management of the Music Corporation of America, with a 6-piece band that has won the distinction of being the greatest dance attraction ever known to the Middle West. Breaking box office records is not alone their greatest achievement, as to this little band of entertainers belongs the distinction of being directly responsible for the honors won by radio station WJAX in the national contest staged some time ago.

It is doubtful whether some of our most popular movie stars ever were deluged with any greater amount of fan mail, wire, candy, flowers, etc., from admirers all over the country, than is Lawrence Welk. His photo adorns the mantel of thousands of homes of music lovers and requests still continue to pour in for the return of this young celebrity and his co-workers, to the radio station. But an attraction such as this is naturally in demand in other sections of the country, and it is through this demand that this famous organization is being brought to the Twin Lakes ballroom by Manager Carl E. Rademacher.

TAXPAYERS ASSOCIATION PROTESTS ELECTION OF OBEE AS CHAIRMAN OF LAKE COUNTY SUPERVISOR BOARD

ADVISES GENERAL USE OF FOX RIVER APPROPRIATION

**Miller Presents Reports of
Engineers on Condition
of Present Dam**

Using the proposed appropriation for the improvement of Fox river for general improvement rather than for the building of a new dam was advised by Benjamin H. Miller, commissioner of Illinois waterways, before a group of about eighty at the Men's club dinner at the Methodist church Friday evening.

Mr. Miller expressed himself as feeling that Representative Lyon's bill for an appropriation for \$175,000 for a new dam at Nippersink in the Fox river was not practical at this time, as it would necessitate obtaining a congressional permit.

He favored amending the bill to provide for using the funds for general dredging and improving the Fox river, and is also in favor of the \$25,000 appropriation, asked by Representative Carroll, being used for a general dredging from the north limits of McHenry to the state line, and for building dykes to protect land owners in the low region, as well as for repairing the present dam. The water level, he believes, can be regulated by the use of flashboards.

Favors Lakes-to-Gulf Waterway. Mr. Miller pointed out the advantages to Illinois of a Lakes-to-Gulf waterway via the Mississippi and Illinois rivers. This waterway is sufficiently wide for navigation except for a section of the Illinois river between Lockport and Utica. An appropriation has been made to rebuild ten bridges, five of which are in the city of Lockport, and to dredge the river.

Senator George Maypole, of Chicago, was present, and spoke briefly on the need of improving Fox river, thus enhancing the value of the lake region as a recreational center.

Music was provided by a male quartet of the club, and E. A. Grutzmacher was toastmaster.

Clean-Up Week, May 4 to 9, Board Says

**Village Board Will Co-Op-
erate in Annual Spring
"Housecleaning"**

Antioch property owners and householders will have the co-operation of the village officials during the annual spring clean-up week, May 4 to 9, it was announced this week.

For two days during the week—Tuesday and Wednesday, May 5 and 6—the village marshals will assume the role of draymen and will remove all cans and rubbish collected in containers and left at the curb. There is no charge for the service.

Burglars Return to Loot \$35 After Spying on Poolroom

Discovery of the theft of a bag of small coins amounting to about \$35 was made in the Martin Zimmerman poolroom Tuesday morning when the place was opened for business. The thieves had entered by climbing a window, investigation revealed.

Two unknown youths of dark complexion and suspicious appearance, who lingered in the poolroom until closing time, are suspected. It is believed that they observed where the money was placed, and returned during the night for the loot. Nothing else was taken, and no trace of the youths has been found.

Mastne Is Prospect For Pitcher on Wes- leyan Varsity Team

Howard Mastne, a freshman at the Illinois Wesleyan university, is making a name for himself as an unusually fine prospect for a pitcher on the varsity team. The Bloomington Pantagraph, in recording Coach Hill's decision to start Mastne in a game with the Bloomington high school team, publishes his picture, and adds, "Mastne appears to have excellent control, and Hill has hopes that he will blossom into 'varky' caliber."

Urges Scanning of High- land Park Supervisor's Official Record

**UNLAWFUL SPENDING OF
COUNTY FUNDS IS HINTED**

Voting protest against the selection of Supervisor William J. Obce, Highland Park, as chairman of the Lake county board at the organization meeting held today, the Waukegan Taxpayers' Association advised a thorough scanning of Obce's record before any vote was taken on his candidacy by the supervisor body. Obce was elected without opposition at this morning's session of the board.

Supervisor Obce was superintendent of construction of the addition to the court house in 1923 and 1924, the latter points out, thus becoming interested in a contract or performance of work in the making or letting of which he was called upon to act or vote.

The letter of the taxpayers, signed R. H. Stripe, president, and Russ Alfred, vice president, is as follows:

"We are informed that Mr. William Obce, of Highland Park, for years a member of the board of supervisors of Lake county, is a candidate for chairman of the board at the election to be held tomorrow, April 23, 1931.

"In view of this we wish to call your attention to the facts that during the years 1923 and 1924, Mr. Obce was superintendent of construction of the addition to the court house.

"If you will ask State's Attorney A. V. Smith he will tell you that it is against the statute of the state of Illinois for any supervisor to do work for the county he represents other than that which is necessary in the performance of his official duties as a supervisor.

"We therefore ask you to consider this question and all of the information that you can glean by investigation through Attorney Smith's office before you attempt to nominate and elect Mr. Obce to this most important office."

Other Violations Cited. In the selection of members for the various committees, it may be deemed advisable also to scan the records of members, especially the personnel of the printing committee.

Published proceedings of the supervisor board reveal that the Highland Park Press and other publications owned and operated by the Udel printing company has done considerable work for Lake county during the time that Supervisor Paul L. Udel has been a member of the county printing committee. Supervisor Udel is part owner and an officer of the Udel printing company.

The section of the Illinois statute violated when supervisors or other officials are elected is as follows:

OLD ST. PETER'S CHURCH IS NOW BEING TORN DOWN

**Worship House, Erected in
1897, Was Used for
22 Years**

The old St. Peter's church building, which has stood on Victoria street since 1897, is being torn down this week. Work was begun yesterday by Nason Sibley, with the permission of Jerry Horan, of Chicago, who bought the property last fall.

Although it has not been used as a place of worship since the completion of the new St. Peter's church and rectory in March, 1930, many of the older residents of Antioch and vicinity still regard it with much affection.

The church was built in 1897, being completed in October, and was only 28 feet wide and 49 feet long, about half the present size. The addition was made over twenty years ago, when Dr. Venn enlarged it at the time of his daughter's marriage.

At first, services were held but once a month, when Father M. Brann rode over from Rosecrans to the "mission church." He was succeeded as pastor by Father Joyce and Father Foley, Father Lynch, who came in 1909, was pastor for a longer time than any of the others, having served until his death in January, 1923. The Rev. Daniel Frawley, successor to Father Lynch, continued services in the old church for about a year, until the present new church was completed.

THE SUCKER'S REVOLT

In most states, there is absolutely no excuse for further increases in the gasoline tax. As a matter of fact, tax decreases would be more in order.

Twenty-one states levy no general property taxes and make no appropriations from general funds for roads. In the other twenty-seven states road taxes collected in this manner total less than 10 per cent of the state highway funds. The owners of motor vehicles pay almost all of the money used for roads. And it must be remembered that good roads are of general benefit to everyone, whether or not they own a car.

Every time the motorist pays a dollar for gasoline, about 20 cents, on the average, goes to the state. In some instances, when low gas prices are in effect, the tax amounts to 40 per cent or more of the cost of motor fuel. No other special tax assumes such significance in our

economic life. Yet, it is suggested, in state after state, that rates be boosted again.

A fair gas tax, all of which is used for roads, is a good thing, but the merit of this is being rapidly lost by unjustified increases and by diversion of tax funds for other purposes. Those who say that "one cent more won't make any difference" may have occasion to change their minds in the near future. The motorists—a term which, in one way or another, embraces a majority of the voting public—show signs that they are growing tired of being made the suckers whenever it is desirable to increase tax revenues.

DEPRESSION'S BEST FRIENDS

The greatest barrier business faces in returning to normal is the threat of higher taxes.

It is all very well to advocate taxing the big fellow to help the little fellow. But it is the big fellow who gives that little fellow his job—who keeps him employed at good wages, and enjoying exceptional living standards. Too, in the United States, the little fellow has been purchasing for himself interests in our great industries, so that it is often hard to tell where "capital" leaves off and "labor" begins.

Prosperity—which is principally a matter of employment—can only return with increased industrial activity, which, in turn, results from an influx of new money. Tax raising schemes that discourage industrialists and investors alike are depression's best friends.

FORD RELIABILITY

Long, hard use shows
the value of good
materials and
simplicity of design

EVERYWHERE you go you hear reports of the good performance and reliability of the Ford.

One owner writes—"The Ford Tudor Sedan I am driving has covered 59,300 miles through all kinds of weather. It is still giving perfect satisfaction."

Another owner describes a trip of 3217 miles in 95 hours over bad roads and through heavy rain and sleet in the mountains. "Throughout the entire trip," he writes, "the Ford performed excellently and no mechanical trouble of any kind was experienced. The shatter-proof glass undoubtedly saved us from serious injury when a prairie chicken struck the windshield while we were traveling at 65 miles an hour."

See the nearest dealer and have him give you a demonstration ride in the Ford. Then, from your own personal experience, you will know that it brings you everything you want or need in a motor car at an unusually low price.

LOW FORD PRICES

Time After Time Konjola Wins When All Else Tried Proved a Disappointment.

The experience of Mr. Albert Chase, 2605 E. 38th street, Little Rock, Ark., is significant. He says: "I became weak and nervous because of stomach and kidney disorders. For a month my feet were so swollen I could not wear my shoes. I bloated badly after meals and became short of breath. Konjola soon corrected my stomach ailment and the swelling left my feet. I am now able to do light work again."

Now consider carefully what Mrs. J. C. Rawls, 217 East Fourth street, Little Rock, Ark., has to say: "I suffered for years with stomach trouble. Constipation and weakened kidneys added to my misery. I began taking Konjola and in two months time I felt like another person. Konjola completely relieved me and I shall always praise it."

Demand Konjola and get it; don't be switched to a substitute.

CHRISTIAN SCIENCE CHURCHES

"Doctrine of Atonement" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, April 19.

The Golden Text was, "He sent redemption into his people; he hath commanded his covenant for ever; holy and revered is his name" (Psalms 111:9).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Blessed be the God and Father of our Lord Jesus Christ, which according to his abundant mercy hath begotten us again unto a lively hope by the resurrection of Jesus Christ from the dead. To an inheritance incorruptible, and undefiled, and that fadeth not away" (1 Peter 1:3, 4).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christ hath rolled away the stone from the door of human hope and faith, and through the revelation and demonstration of life to God, hath elevated them to possible attainment with the spiritual idea of man and his divine Principle, Love" (p. 48).

Scrapping the World's Shortest Railroad

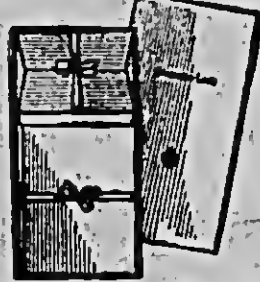

What was said to be the shortest railroad in the world, running for one and one-half miles between the docks and warehouses on Governors Island, has been condemned by the United States army and torn up. Built during the war to transport stores and machinery on the island, the railway, with the official name Governors Island railroad, gradually decreased in usefulness.

Taxpayers Protest Election of Obee

(Continued from first page)

ficers interest themselves in contracts or public work, and to which the taxpayers' association is probably alluding in the letter of protest, is as follows:

CHAPTER 102, ARTICLE 3.—Not to be interested in contracts.—Not to act as attorney to procure—Bribery. It shall not be lawful for any person, now or hereafter holding any office, either by election or appointment, under the constitution of this state, to become in any manner interested, either directly or indirectly, in his own name or in the name of any other person or corporation, in any contract or the performance of any work in the making or letting of which such officer may be called upon to act or vote. And it shall not be lawful for any such officer to represent, either as agent or otherwise, any person, company or corporation, in respect of any application or bid for any contract or work in regard to which such officer may be called upon to vote. Nor shall any such officer take or receive, or offer to take or receive, either directly or indirectly, any money or other thing of value, as a gift or bribe, or as a means of influencing his vote or action in his official character; and any and all contracts made and procured in violation hereof, shall be null and void.

When it is considered that the maximum penalty that may be imposed upon one convicted of violating this law is a penitentiary sentence of five years, or a fine of \$1,000, or both, it would seem that supervisors should proceed with extreme caution regarding the placing of contracts for public work.

To further tie up printing purchases and to halt the commendable practice of county officers making purchases wherever most advantageous, two years ago, through the influence of some group, the "requisition plan" was adopted in a resolution passed by the board, thus giving the printing committee a throttle hold on the county publication business, which has assumed the proportions of a "racket."

The county appropriates \$30,000 per year for printing.

The point is, why confine the protest to Supervisor Obee, when others, ignoring the law with seeming perfect propriety, for years have feasted unchallenged at the county coffers by virtue of the fact that they are continued in office by a group that trades dollar for dollar in the mad game of "milking" Lake county of public funds to the last drop?

There are two ways to stop unlawful expenditures of Lake county funds: One is the securing of a permanent injunction restraining any officer from participating in any county work or contract. The other, and more potent way, is to institute criminal action against those who have wantonly eluded the law in the face.

LAKE COUNTY Farm Bureau NEWS NOTES

4-H CLUB WORK

About 200 boys have signed up in seventeen different 4-H clubs this year. Albert Herman, assistant 4-H club leader, has been putting forth extra effort to see that the boys are well started on their projects.

Any boys interested in getting into 4-H club work should get their names in to the Farm Bureau office, Graylake, at once.

GIRLS' 4-H CLUB WORK

Girls' 4-H club work will be carried on under the direction of the organization committee of the Home Bureau. The leaders had a meeting with Miss Martha Hensley, assistant state leader, April 14, and will have a subject matter school next Thursday.

Girls interested in belonging to 4-H clubs this year should send their names to the Girls' 4-H Club Work Committee, in care of the Farm Bureau, Graylake, Ill.

INCOME TAX

A large representation from the Lake county Farm Bureau and Lake county Pure Milk association, together with delegations from McHenry and Boone county Farm Bureaus, met with Representatives Lyons, Bolger and Carroll, from this district, and talked over the income tax bill and companion bills, which are before the House at the present time. This bill passed the senate Wednesday, April 15, on a vote of 30 to 17.

Representatives Bolger and Carroll expressed themselves as being in accord with and will support this bill.

THANK VOTERS

The president, trustees, and treasurer of the Village Board wish to thank all those who supported them at the polls, April 21.

CARD OF THANKS

We wish to thank our friends, relatives and neighbors for the beautiful floral offerings, assistance, use of cars, and for the sympathy shown during our recent bereavement in the death of our father, Henry T. Paman.—The Paman Family.

Radio, Telephone, Auto Combine to Break Down American Farm Isolation

Morse Salisbury, chief of the radio division of the U. S. Department of Agriculture, believes that radio has done as much as good roads, the telephone, or automobiles to break down the traditional isolation of the American farmer.

"The radio," he points out, "brings to the man on the land rapidly and accurately the facts on the fluctuations of the markets where he sells his products. Radio advises him of the weather, expert forecasts of rain or shine and warnings of rigorous weather against which he must protect his stock and tender plants; it gives the practitioner of scientific farming a man to man acquaintance with the agricultural scientists of State and Nation and their work."

Furthermore, it has given the farmer, front-row center, a place in the theatre of world events, culture, and pleasing entertainment.

Recent developments in radio engineering are expected to increase materially the number of receivers in rural homes. Only one-third of the farm homes of the Nation are at present equipped with radio. Hereafter, the old type battery set, with its necessity for frequently recharging storage batteries at considerable inconvenience and expense, made many farmers hesitant about purchasing receivers. Science has just perfected a new type battery which literally "breathes" the life giving oxygen from the air to maintain constant voltage over a long period. The result is that a

Morse Salisbury, Chief of the Radio Division, Department of Agriculture.

number of leading radio set manufacturers are bringing out an entirely new type "air cell" set which utilizes the "breathing battery" and puts the farmer on a parity with the city dweller as far as radio reception and service are concerned.

She's Controlling a Rolling Mill

No, the young lady is not playing an organ or any other musical instrument. She is operating the controls for a reversing rolling mill in the steel industry. This "piano" type control keyboard is designed so that one person can easily control a large number of auxiliary mill drives. The foot pedals cause two large motors to reverse their direction of rotation, from full speed to full speed, in less than two seconds.

Mrs. Bacon Is Elected Non-H. School Director

After a canvass of the vote cast April 11 for the election of one non-high school director for Lake county, the board yesterday declared Mrs. Bernice M. Bacon, Round Lake, elected over James G. Welch, Wadsworth, by a vote of 453 to 334, according to County Superintendent W. C. Petty, who is secretary ex-officio of the board.

The non-high school board of directors is the governing body that directs the affairs of all territory in the county that is not included in some high school district. There are three members on the board and they are elected in rotation, one member being elected every year for a 3-year term. The personnel of the board now is: Mrs. Bacon, just elected, Theodore Forby, of Zion, and John Baker, of Lake Bluff.

It is the duty of the board to ascertain operation costs of the various high schools and to establish and pay tuition fees for students residing in non-high school districts. The board works in co-operation with the county superintendent's office.

Dividend Printing

There is one kind of printing that you want—printing that pays a dividend on the investment.

A letterhead with right sort of type properly balanced is a real business asset. It is the approval of the person receiving your letter, and while he is in this frame of mind your letter is read.

The same reasoning applies to any other job of printing. Neatness, the right weight and kind of paper, the color of the ink, the selection of the type, all play an important part in the production of dividend printing.

We are equipped to give you that kind of printing. Let us prove it to you.

Printing • Art •

In every piece of job work we do, we employ the latest ideas of the printing art to develop your sales arguments and to emphasize your selling points. It increases your returns materially.

Eat Everything without Fear of Indigestion

Are there lots of foods you can't eat—for fear of gas, bloating, pains in the stomach and bowels?

Do you have to pass up favorite dishes—while the rest enjoy them?

That's a sign you need Tanlac! For more than 10 years Tanlac has restored to vigorous health thousands who suffered like you do.

Mrs. Arvena Bowers, of 1230 Jackson St., Topeka, Kan., says: "Five years I was troubled with gas, bloating and dizzy spells. But Tanlac toned up my whole system and increased my weight 10 lbs."

If you suffer from indigestion, gas, dizziness, headaches, or torpid liver—try Tanlac. One bottle often brings the needed relief.

Tanlac is a good, pure medicine, made of roots, herbs, and herbs. Get it from your druggist today. Your money back if it doesn't help you.

BUSINESS PITFALLS IN FARM DISTRICTS

Bankers Point Out Hazards of
Unsound Practices and Help
Farmers to Avoid Them.

WAYS in which bankers may discourage unsound farm practices are described by President F. D. Farrell of the Kansas State Agricultural College in the American Bankers Association Journal. He says:

"In Kansas in connection with the importation of dairy cattle, a large shipment of very inferior animals came into a county to be sold at auction to local farmers. The county agricultural agent informed the bankers that the cattle would be a detriment to the community. The bankers refused to finance the purchase of the cattle and the sale was abandoned. The cattle were shipped to another county. The county agent and the bankers there did as was done in the first instance and the second county escaped."

"A year ago creamery promoters began trying to capitalize the Kansas farmers' desire to improve his markets by inducing communities of farmers to purchase creamery plants before production and local conditions justified them. Informed of this by the State Agricultural College, the bankers association sent warnings to every bank in the state, leading many to refuse to support the creamery promoters until the college approved the plant for the community concerned. This saved many communities loss from the premature establishment of plants."

"A third way bankers can discourage unsound practices is to refuse to finance farmers who wish to prairieize their enterprises, a temptation difficult to resist. This is illustrated among farmers who buy cattle for feeding purposes. A farmer feeds two or three cars of cattle one year and makes a good profit. This induces him to buy twice or three times as many the second year, still more the third and so on until he finally loses more by buying too many cattle on feed in a year of bad prices than he made in several previous years with smaller numbers and better prices. When bankers discourage bad practices their action is a positive benefit to the farmers concerned."

WHAT A KEY BANKER DID FOR HIS COUNTY

The farmers of one county in Tennessee are receiving \$400,000 additional annual income from new farm enterprises started since 1926 through the efforts of a "key banker" and the county agent, according to estimates from the Tennessee College of Agriculture. A "key banker" is a part of the state bankers' association voluntary field force cooperating with the American Bankers Association in its nationwide plan for bringing about better agricultural conditions through combined banker-farmer effort. New projects started in this particular county are tobacco, Irish potato and cabbage production for cash crops, and dairying and poultry raising for livestock.

The key banker, looking for something to do to better his community, first attempted to procure a county agent but was unable to get the county to make the necessary appropriation, so he and other leading citizens made up the requisite funds through private subscription among farmers and business men and an agent was employed. Up until 1926 grain was the principal farm production in the county. The banker recognized the disadvantages of this. It afforded a low cash income, and the land was too hilly and rough for profitable grain raising. His idea was to introduce cash crops that offered more return per acre and were better fitted to the county. It was decided that the county should standardize on the Green Mountain potato and to market it in carload lots. Through his bank he sponsored the buying of a car of certified seed potatoes. He likewise bought some high quality tobacco seed and several hundred settings of purebred eggs. These supplies were distributed at cost through the banks to the farmers.

After considerable effort a market for dairy products was assured the farmers when in 1925 a national cheese company located a factory there. A county appropriation was secured for county agent work in 1928.

In 1929 the cash crop program resulted in farmers selling \$15,000 worth of milk; \$150,000 worth of tobacco and fifty-five carloads of potatoes and cabbage, mostly through cooperative sales. "This was some step from the \$25,000 worth of cash crops in 1926," the county agent says, "and indications are that this amount will be doubled."

Banks Favor Diversification

Emphasis was placed on the strategic position the banker holds through the use of direct credit at a recent meeting of the Alabama bankers' agricultural committee. Alabama is confronted with the problem of over-production of cotton. The committee recommended to banks that credit be extended on the basis of a twenty-five per cent reduction in cotton acreage. The value of growing other crops than cotton was strongly stressed and county outlook meetings are being planned with the thought of bringing about a more balanced agricultural program in the various communities.

How to play Bridge AUCTION or CONTRACT

by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGES"

Copyright, 1930, by Hoyle, Jr.

ARTICLE No. 12

It is pretty good evidence that Auction Bridge is becoming the national game when the editors of the metropolitan dailies make it the subject of their editorials. Here is one that recently appeared in the *New York American*, under the caption "Bridge of Sighs."

"Most games of cards are criticized as gambling, but bridge is coming in for condemnation because it provokes violence. Judge W. N. Gemmill goes so far as to say that married couples never should be partners. A bride of social importance had testified that she doubled a four diamond bid and lost the trick, at which her husband, who was her partner, flamed into a rage and berated her before their guests. Only a few weeks before, another couple traced the cause of their separation to the trumping by the wife of her husband's ace."

"Assuredly, bridge is for those who can control their tempers and their tongues. Players who cannot smile and turn the other cheek when smitten should stick to euchre or casino. But bridge is a wonderful school for poise and patience. Anyone who can pass through the ordeal of a tournament without an emotional outbreak ought to be able to buy Radio on margin and sleep soundly of nights."

There is a mighty fine lesson in card manners in that editorial, so try to profit by it.

Here are three problems in the play of the hand that will give you something to think about during the next week:

HintsLEAKS IN THE
LARDER AMOUNT
TO LARGE SUMSTo Reduce Waste Consider
Purchasing, Preparation,
Ice, and Left-overs

It has been estimated by various authorities that the average American family wastes approximately 15 per cent of the food purchased. This is due largely to lack of proper facilities for food preservation.

Even the thriftless housekeeper would be surprised at some of her own extravagances if she were shown in figures the dollars and cents she wastes.

The pint of milk that turns sour, the butter that gets an "off taste" and has to be used for cooking fat, the tomatoes that become over-ripe, the last two or three eggs that start as grade A and end in a dubious grade, the imported cheese that grows and grows mouldy, the left-over soup that begins to smell foul—these and other small larder leaks go to make up the 15 per cent spoilage. And food costs too much these days for any family to be able to afford waste.

Refrigerator Cuts Down Waste.
There are many women who pride themselves on never using any eggs but the very best and who would be quite horrified at the idea of buying cold-storage eggs, yet they actually use many eggs the quality of which has become equivalent to one of the lower grades. Proper refrigeration facilities, constantly assuring a safe temperature of below 50 degrees, would keep those eggs up to high standard, as well as preserve other food-stuffs in wholesome condition.

Then, too, foodstuffs not properly preserved may look good or taste good, but at the same time they may be contaminated. Bacteria in foods increase at a tremendous rate in a short period of time. Health authorities in all sections are attempting to arouse housewives to the importance of proper refrigeration because they realize better than others that the par-taking of food which has not been properly preserved has taken its toll in the loss of thousands.

Use Left-Over Food.
In the morning, there may be an slice or two of toast left on the plate, and the housewife, knowing from experience that cold buttered toast is shunned, slings it in the garbage can, instead of re-creating it, or using it in dressing.

If, after a company dinner, a large amount of meat remains, it could all be canned, instead of being served and reserved as last, and finally a part of it thrown out.

Preparing vegetables is another opportunity for the slipshod, inefficient housewife to add to the refuse can—by wasting a good portion of the vegetable in the paring, or in the manner of cooking, or serving. It does seem that left-over vegetables are unappetizing, but they can be used in soups or perhaps in a salad. Judging to a reasonable proximity the amount the family will consume may be learned by every cook to the decided advantage of the food budget.

Purchase Correct Amounts.
Buying or baking in too small quantities for a large family, or in too large amounts for a small one, is one of the best-known means of allowing that "leak in the larder," more money being expended in both cases, and in the second instance a huge amount of food being wasted, as well.

Means a Meal in Minutes

By JOSEPHINE B. GIBSON

Director, Home Economics Dept.,
H. J. Heinz Company

WHO does not remember, when almost every home maker was forced to can and preserve sufficient foods to provide for the long winter months when harvest had passed? Shelf upon shelf was crowded to overflowing with canned fruits, vegetables and jellies. Even meats were preserved—since it was upon her home alone of good things that grandmother had to depend for that good dinner she often was required to serve on short notice.

In these modern times, most of us no longer actually prepare the foods with which we stock our pantry shelves. Thanks to scientific discoveries in canning, we can have always at hand the makings of complete and delicious meals. And wise, indeed, is the woman who takes full advantage of this favorable situation by keeping an adequate supply of staples and prepared foods always at hand.

Among the items which your "Emergency Shelf" should yield at all times are cereals (both ready-to-serve and cooked), Cream Soups, Cream Baked Beans, Cooked Spaghetti, canned fish and meats of various kinds, vegetables (such as peas, asparagus, corn and beets), Relishes and Pickles, Spanish Olives, Fruit Jellies, Salad Dressings and Sandwich Relish, packaged cheese and crackers, canned fruits in variety and small packaged cakes.

Be sure to replace any item as it is used, and you soon will see how easy it is to prepare even an elaborate meal—in short order—with-out a trip to the market. The following menus are suggestive of the possibilities that lie in a well-stocked "Emergency Shelf":

**Cream of Pea Soup, Crisp Crackers,

MAY DAY STIRS
DESIRE FOR DEWY
GARDEN BLOOMS

May day is just around the corner—May day, when poets lust on gambolling lambs, dancing children, a be-ribboned Maypole, and baskets of spring flowers.

Spring flowers, in particular, are symbolic of May day. Baskets of iris, daffodils, tulips, lilacs, flowering currant, and wildflowers are beautiful gifts to those who are ill or aged.

The flowers mentioned are perennials, and with a little care will return every year to bloom.

Antioch has many lovely gardens, but if every resident in Antioch and all the neighboring towns set out additional plants this year, preparing for next year and may years to come, Antioch would become not only the hub of the lake region, but the beauty center as well.

Think what a fine day could then be made of May day in the lake region.

LATEST FASHION HINTS

Have you noticed? Blue and white ensembles are in vogue. There was a perfectly adorable one seen in Antioch the other day. There are several ways in which these colors can be combined effectively—with a pearl necklace, a belt, or a form-fitting redingote, which opens at the front to reveal the under frock.

Dolphins summer tennis frocks will imitate the model which made such a hit at Palm Beach last winter—a linen dress, high waisted, with a

linen and cotton mesh yolk, drop shoulder sleeves, and skirt pants.

Another summer favorite will be the scalloped bodice, waist length, worn over a print frock.

And of course there is little use in repeating that capes of every conceivable cut and shape are distinguishing this season, and that the flared skirt, with here and there a ruffle, is well-nigh indispensable.

Make Best Use
Of Table Linen,
Silver and ChinaTable Can Be Charming
With More Originality
And Less Fuss

Is it necessary that a hostess possess fine damask, sterling silver, antique silver pieces, crystal glassware, and perfectly harmonizing china, to entertain even the most socially elite? Of course, it is very desirable, but—especially today when it is fashionable to economize—not essential.

Think of the fun to be derived from setting a table attractively from a heterogeneous collection of dishes. If the occasion is formal, use the best white linen you have—to add a deliberately "different" aspect, sprinkle Christmas tree icicles over the cloth; but if informal, an inexpensive cloth with gay pastel colors is most appropriate.

But whatever the quality of linen used, always carefully lay a silencing cloth. Any cloth should be put on with absolute evenness, the crease down the exact center and the edges hanging evenly all around.

Make Best Use of Everything.

If a hostess has parts of two or three sets of dishes, instead of a full set, she may alternate in setting the table, using one kind for the ladies, and another for the men; and, if necessary, still another for the children. An odd assortment of glassware may be used in the same way. The same holds true of silverware, in a lesser degree. If there are not enough pieces of good silverware to go around, the hostess must make the best of what she has, or be out of luck.

Candles are so very reasonable that anyone could grace their table on occasion with two of these, emphasizing or balancing the dominant color. If cloth napkins are shabby, better to use paper ones, folded in shapes suitable to the season.

And the centerpiece! There is more scope for originality here than in the other details of table setting. A bit of greenery, flowers (artificial, if possible), potted, tamed, or wild, but tastefully arranged, baskets, interesting bits of pottery, silver, or figures, ribbons, etc., may be used to advantage.

Be a "Balanced" Hostess.

There is one thing lacking in some hostesses—and that is a sense of values, of balance, or of proportion. They are blind to the fact that an elaborately correct table is not important in the great scheme of life, and is not worthy of fuss and worry. True, one should be able to recognize when such details have importance—as in establishing the right impression on an important business associate of Hubby's, or on the social leader of the town—but when such emergencies arise, it pays to pocket pride, and borrow what is needed from a sympathetic friend, thus eliminating worry.

One will be a much more charming hostess, if her brow is serene and untroubled.

TOPPY'S TRAVELS

Synopsis: Toppo leaves home to follow his canary. After many adventures, he and his friends, Mr. Frog and Toy, the drowdrop, cause the Cushions to fight the Pillows. Thus they hope to rescue their Cloud-Queen, whose land is invaded by the Pillows. Toppo awaits the return of Mr. Frog who has gone to warn the Cushions against a plot of the Pillows. The Cloud-Queen has departed to fetch her Maidens through a tunnel to the room with a secret pool. Toppo wonders what will happen to Mr. Frog if he returns while the Queen has the key. Continue:

The boy lay on the soft grass, and kicked his heels. He jumped at every noise, fearing that Mr. Frog would return.

In desperation, he began humming a nursery rhyme his mother had sung to him. It was a jolly little song, which he had always liked, and he sang it again and again, louder and louder, so that he could not hear other sounds.

Once while he paused for breath, he was startled at a voice outside the door shouting angrily, "Say, if you don't stop that racket, I'll break down this door, and make you stop!" It was a guard.

For a moment Toppo was paralyzed. Then he laughed. "Try and do it!" he taunted. "Just try and do it." He knew that the pany strength of a Pillow would be unequal to breaking down a door, so he began at once to sing with all his might. "That ought to make him go away," he exulted.

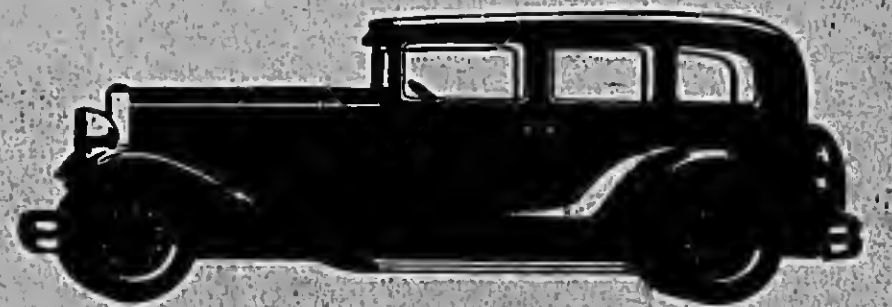

He had quite forgotten all his new friends—Mr. Frog, the Cloud-Queen, Little Toy—who he was singing and imagined himself at home singing while he played with Nancy.

It was as if he were in a dream that he heard a tiny familiar voice saying with surprise, "Why, Toppo, are you ill? I never saw you act this way before."

Framer of Income Tax Law Went Wrong

Representative Willis C. Hawley of Oregon, chairman of the house ways and means committee, chairman of the joint committee on internal revenue taxation, and one of the framers of the income tax law, has been advised that he made a mistake in filing his return for 1928. The photograph shows Mr. Hawley trying to figure the darn thing out at his office at the Capitol. In case you are curious, he paid too much.

TWO FIRSTS TAKEN IN H. S. SPEECH, MUSIC CONTEST

Talent Shown by Youthful Writers of Seasonal Poetry

Antioch tied with Palatine for second place in the high school conference and district music and speech contest at Palatine Saturday. John Tellalsha received first place for his violin performance of "The Student Concerto, A Minor," by August Nohak, and "Air de Valse in D Minor," by De Beriot; Clayton O'Haver easily took first in the extemporaneous division of public speaking; Olive Hansen rated second with her soprano solos, "At Morning," by Jeanne Boyd, and "Spring Night," by Hadley. Ruth Perry, who was entered in oratory, won second in the conference, and third in the district; Margaret Smith, entered in the dramatic division of public speaking, was given third place.

John Tellalsha, Clayton O'Haver, and Olive Hansen will enter the sectional contest at DeKalb May 2. The contest selections for the music entrants will be the same as those in the district contest. Olive Hansen is to try for a music scholarship at Bloomington Saturday, when she will sing "At Morning," by Jeanne Boyd, and "Where the Bee Sucks," by Thomas Arne; John Tellalsha may accompany her, and try for a scholarship.

The Antioch high school baseball team now has an average of 50 per cent, having won and lost a game. Antioch dropped the second game of the season to Warren Friday afternoon, 10-4. Munsell, Keulman, Turk and Steffenburg each slapping in a run.

After Brogan had pitched three innings, Coach Reed substituted several others for inning trials, all of whom made creditable showings. Their lack of experience, however, enabled the Warren boys to collect ten runs, with one homer by Portegys.

A game is scheduled between Antioch and Leyden at Franklin Park tomorrow afternoon.

An 8-6 victory for the Antioch grade school baseball team in their first game with Grayslake, Friday, gives the local team a perfect slate to start the season.

John Koukol and Frank Merrill held down the pitching plate for Antioch.

The other boys who played were Earl Grove, Arden Van Patten, Franklin Crandall, Stanley Lucas, Oliver Grutzmacher, Bernie Waters, Kenneth Crowley, Fowler Simpson, Xavier Hawkins, Bruce Dalgard, William Duffy and Armand Dalgard.

The team will take on Luke Villa here at 4 o'clock tomorrow.

The mathematics of the fifth grade as revealed by the results of the arithmetic contest during the past month are Henry Patterson, Charles Miller, Florence Hackett, Ceila Ahele, and Mary Lou Sibley.

Four of the best poems written by students in the seventh grade are submitted by the teacher, Miss Mildred Byrnes.

RIVERS
By Evelyn Overton.
Rivers are beautiful things.
They go singing over rocks and stones.

They dance in the sunshine
And run in the rain.
They dance around hills and in valleys.

You can go swimming, wading and fishing in a river.
You can wade and cut your toes
On a piece of hidden grass;
But you can't dance and sing
And go traveling all over the world
Like a river.

SPRING
By Ralph Menner.
Spring is here! Spring is here!
It has come once more this year.

Birds are singing and flowers are blooming;
Why doesn't Spring come twice a year?

SPRING
By Cheryl Smith.
Spring is here without a doubt;
This is no time to sit and pout.

Of the cold you shall not fear
Because we know that Spring is here.
In the ponds the frogs are croaking,
Spring is here, and that's no joking!

BIRD VOICES
By Dean Williams.
Hear the birds singing?
They are happy today;
They are sing of lullaby
Very far away.

They sing of their children,
The flowers and trees,
Of worms and flies
And breadcrumbs and bees.

They are happy to get back
To the north states again;
Chirp! sings the robin,
And Chatter! habs the wren.

CHANNEL LAKE COUNTRY CLUB NEWS

The beautiful weather during the month of April has lured many Chicagoans to the near-by lakes and golf clubs, and the Channel Lake club has seen much activity each week-end. If present conditions continue, the summer cottages will be opened earlier than usual and the country club will soon be opening up its summer schedule.

Announcements are out for the last luncheon and bridge party of the winter season, to be held at the Women's university club, 185 N. Wabash avenue (seventeenth floor), at 12 o'clock Wednesday, April 29. As usual, guests are most cordially welcome. Reservations should be made through the

chairman, Mrs. J. H. Sandell, 621 Addison street (Buckingham 3610), on or before Monday, April 27.

Mr. and Mrs. J. N. Tankersley have been sojourning in Albuquerque, N. Mex., for the past few weeks. Mr. Tankersley is returning to the city soon, but is leaving Mrs. Tankersley with her sister, Mrs. Adele Jurden, for a more lengthy visit in this charming country.

It is also reported that Mrs. O. H. Kresse and daughter, Mildred, are returning very soon from New Zealand, where they have been living for almost two years. They will receive a most cordial welcome home by their many friends in the Channel Lake country club.

AN ELEPHANT RIDE IN BURMA

Well, youngsters, my yarn today has to do with an adventure I had in Burma, a part of India bordering on the eastern coast of th' Bay of Bengal.

Kangy, Singoot and I had gone ashore to have a little fun, and to see what th' country looked like. Before that day ended we had quite a time of it.

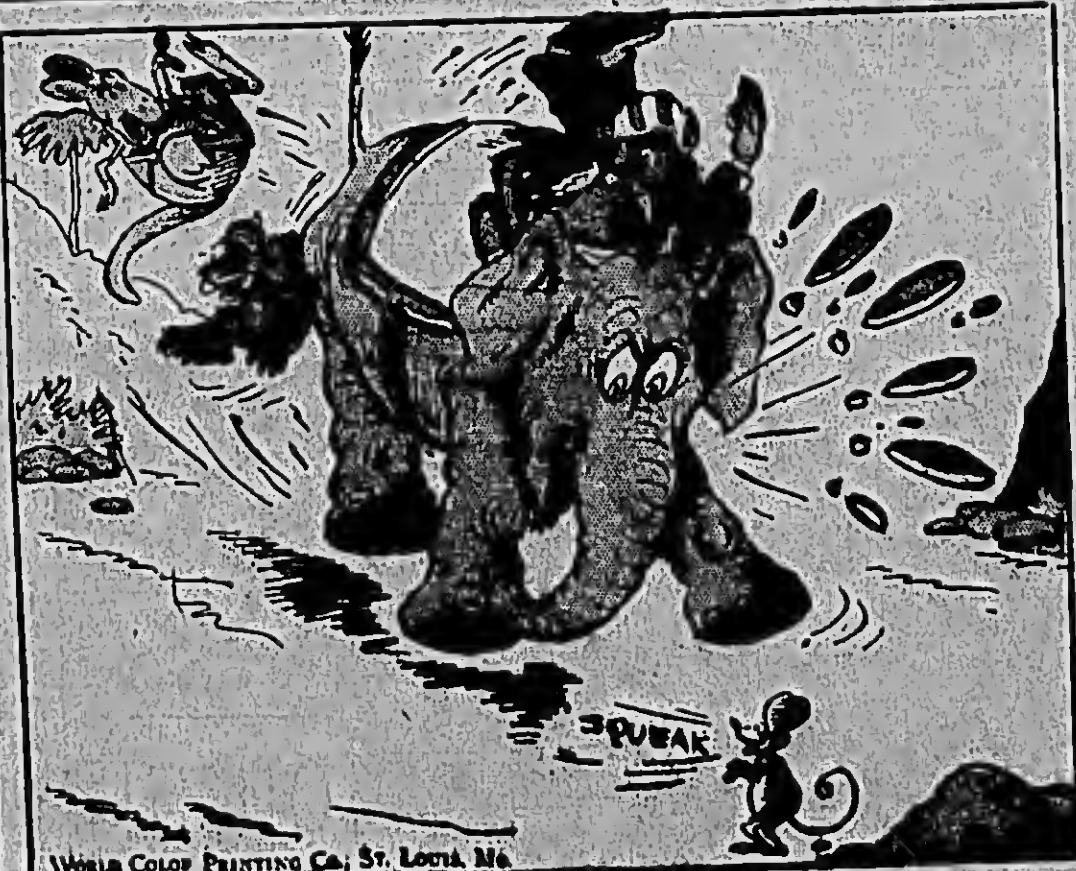

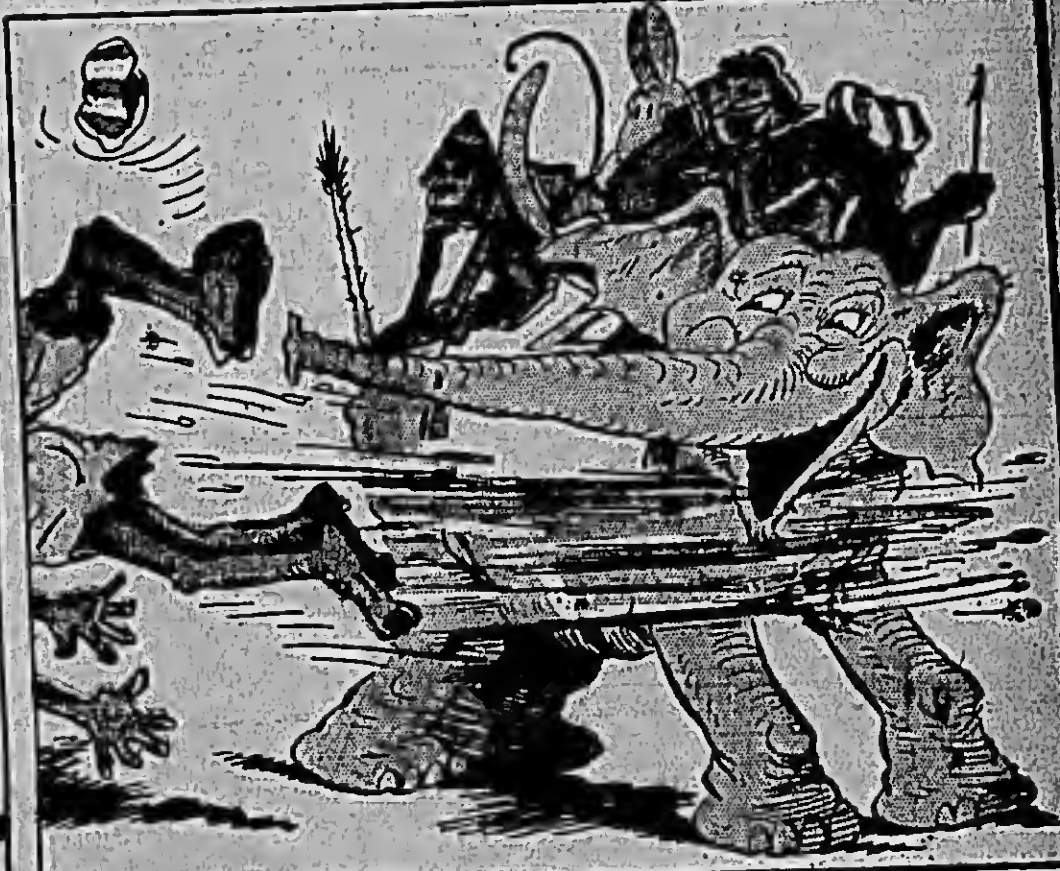

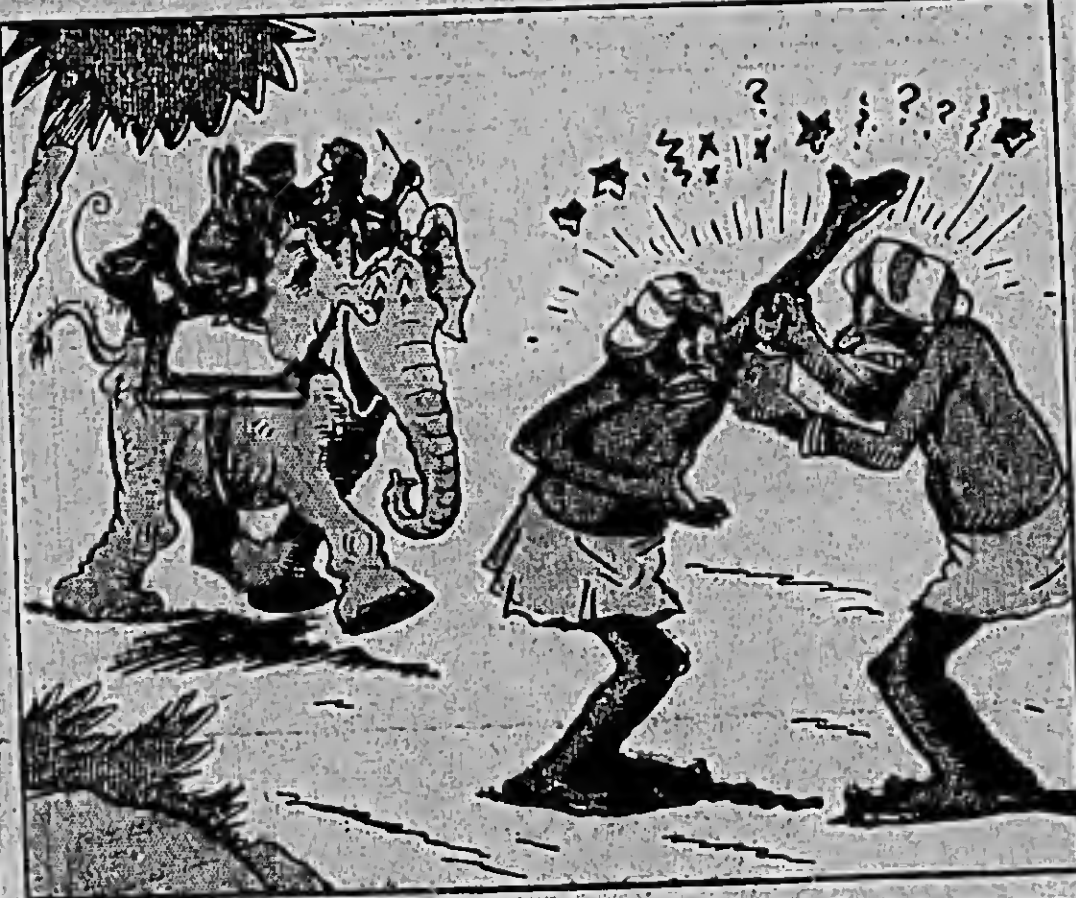

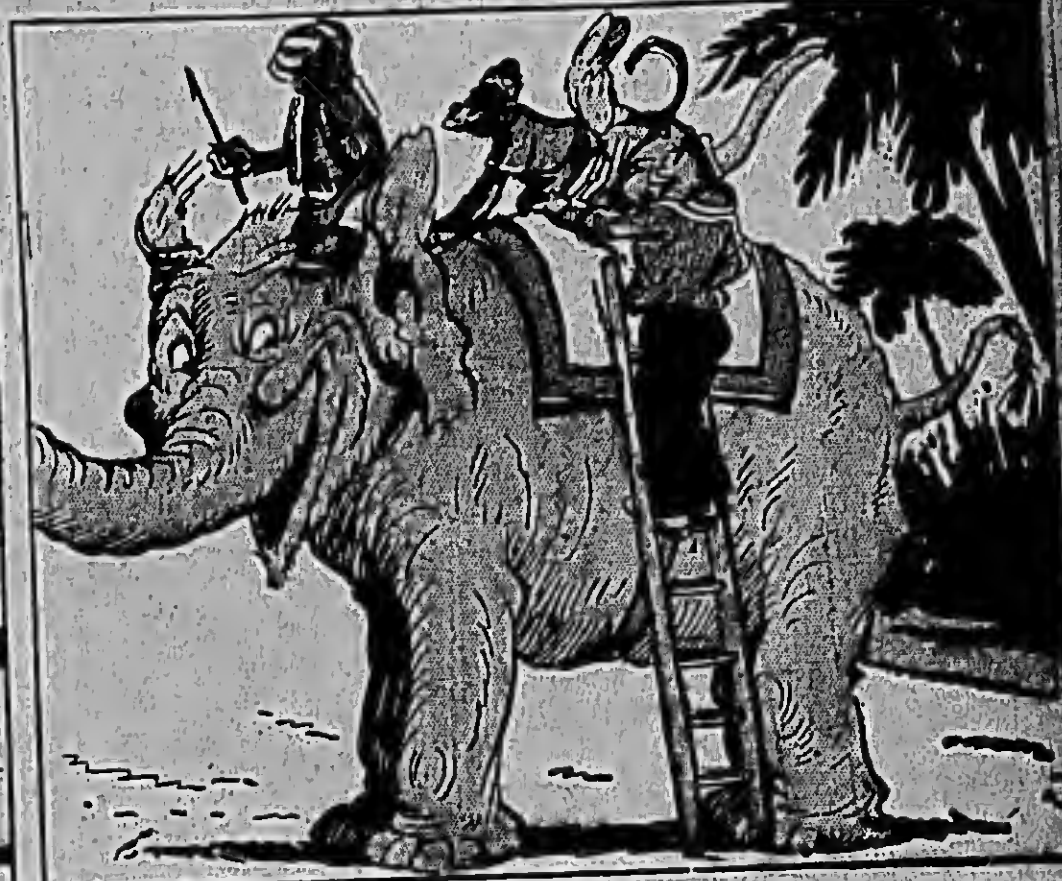

We were wanderin' around when we hove alongside a big elephant. Th' chocolate-colored native in charge of him asked us if we wouldn't like to take a ride. Kangy wiggled his whiskers and looked very tickled. Singoot seemed willin' and I thought it would be great to cruise on an elephant. So we climbed aboard and got started.

It was smooth sailin' until we hove alongside of two arguin' natives. That elephant gave 'em a swat with his trunk and actually stood on his hind-legs and grinned

when th' two of 'em picked themselves up and called him a name.

We'd no sooner got clear of th' natives when we overtook a fat white man waddlin' along smokin' his pipe. I'll be dingbusted if th' elephant didn't pick th' man up in his trunk, dump him into a river that was near, then trotted on, snickerin' to himself.

Then th' funniest thing of th' day happened—but not for th' elephant. We were joggin' along, takin' in th' scenery, when in th' road, right in front of th' elephant, a little mouse popped up and began to squeak. I've never seen anything so scared as that elephant was. You see, an elephant is afraid that a mouse will run up th' inside of his trunk. Well, s'r, he went right up into th' air, and off into th' dirt we went. Th' last we saw of him he was tearin' down th' road in a cloud of dust.
